Subject: FW: Analytical request for data validation of Tier IV data from Isotech

Rupert,
Can you please review the attached request for data validation of the ethane isotope analysis by Isotech. This request is needed to have the Isotech data validated by ESAT. If it looks good we can submit this request to OASQA.
Thanks,

Suddha Graves

Subject: Analytical request for data validation of Tier IV data from Isotech

Rich,
Attached is a draft analytical request for data validation of the ethane isotopes analysis by Isotech. Preliminary results are due by April 24th. I expect the data package to be available for validation the week of April 30th. If this looks OK, I'll submit it to OASQA and cc everyone.
